Register your iClicker remote

If your professor is using iClicker with his/her Canvas course, you must register your remote inside the Canvas course. Look for the iClicker Student Registration link below (figure 1), inside the course. If a link is not inside the Canvas course, ask your professor to enable it.

If you already registered your remote at iclicker.com, you must re-register inside the course.

Clicker here to Register your remote, ONLY if your course is NOT IN CANVAS.
